

# Verified document delivery system

Prepared for Northstar Operations

Valid until 30 September 2026

## Outcome

A repeatable document workflow that creates editable Word files, native PDFs, and machine-readable parity evidence.

## Scope

- Map existing Word documents into reusable templates
- Implement JSON-driven rendering and strict validation
- Deliver viewer evidence, training, and rollout documentation

## Managed support included

The delivery includes a 30-day supported rollout and weekly office hours.

## Investment: EUR 28,000

Confidential. Prepared exclusively for Northstar Operations.
